

International Competence Centre for Organic Agriculture

**Opening for Deputy Manager/ Manager ( Research and Development)**

The position would be responsible for Research and Development Projects in organic systems of farming. The research basically involves 'System Comparison' between organic and conventional systems of farming and to evolve 'Organic Package of Practices' through these research trials. One such research work is being commissioned in one of the Northeastern states. The profile also includes liaisoning with Government officers, leading the research team and requires extensive traveling. Candidate must be M.Sc (Agri) in any branch of Agriculture with experience of Research and Development for minimum of 3 years in any Institution/ Organization, should be well versed with computer basics, with good knowledge of written and spoken English, Hindi and preferably one or more regional languages. For eligible candidates, salary is no bar and will be at par with industry/ sector norms.

The position is based in the ICCOA Head Office at Bangalore. The candidate is however required to travel extensively.

The resume with a covering letter must reach ICCOA (by Email to [info@iccoa.org](mailto:info@iccoa.org)) before 15<sup>th</sup> Dec. 2009.
